TRAINING & PROJECTS

Mind games

Duration: August 2017-December 2017

Team size: 2

Role played: Testing and designing the quiz module.

Environment: Turbo C++

Language used: C++

Description: This project comprises of two games i.e. memory game and quiz. The memory game was divided into sub categories like country names, famous personality names, etc. this game helps to improve an individual's memory.

The quiz was also divided into sub categories like science, general knowledge etc. This quiz helps to enhance the IQ level of the player.

Online Quiz for Gurukul Classes

Duration: January 2016-April 2016

Team size: 2

Role played: Developer and tester

Language used: PHP, HTML, JavaScript

Description: This project was designed for a coaching centre, named Gurukul Classes. With the help of this website, the students could give the test online in different subjects and the admin could manage the questions and categories of the quiz. Through this, the students could see their results and also give feedback to the admin.
